

Personal, Social and Emotional

What do you miss about school? Talk about the things that make you happy at school. What are you looking forward to doing at school again one day? Is there anything that worries you? You may be going to a new school soon - how do you feel about this?

Talk about your feelings with your parents or siblings. Maybe you could draw a picture of your school or your friends or the activities you enjoy.

Talk/Draw

Communication and Language

We can use many different things to make sounds - objects around us (environmental sounds), different parts of our bodies such as hands and feet (body percussion) or our voices (vocal sounds). Using different sounds, try adding sound effects to your favourite story. For example, tinkling coins when the giant counts his money, or stamping your feet when the giant is coming, or making hen sounds or harp sounds with your voice.

Listen/Do

Physical Development

The 5-a-day exercise challenge. Can you find 5 different ways to exercise each day this week. Encourage your family to join in. Here are some ideas:

Climb up and down the stairs 10x

Go for a walk or a run for 10 mins

Throw or catch or kick a ball 10x

Ride on your bike or scooter for 10 mins

Run and jump or do star jumps 10x

Be Active

Literacy

Listen to 'Jack and the Beanstalk' on <https://www.youtube.com/watch?v=4eVoj-Cidyk&t=18s>

'Jack and the Beanstalk' is a traditional tale which means that it is a story that has been told many times over many years by different people. Some people have written it in books. As the story is told, parts of it can change. Maybe listen to another version of the story and find what is the same and what is different.

Story

Mathematics

Why not do some sorting and grouping. You could use some of your toys or other objects. Sort them into groups using different ways of sorting. You could sort them by colour, size, type or something else. How many objects in each group? Which group has the most? Which group has the fewest? How else could you sort them?

Sort/Count

Understanding of the World

Magic beans were planted in the story. In real life, beans and other seeds take much longer to grow. Why not plant some vegetable or fruit seeds?

1. Find a pot and a seed,
2. Put some soil in the pot.
3. Push the seed into the soil.
4. Water the seed.
5. Put it on the windowsill in the sun.
6. Keep it watered.

Grow

Expressive Arts and Design

When telling the story of 'Jack and the Beanstalk', toys and bits and pieces from around the home were used for the characters and props. Some of the props were made out of recycled materials - the axe and harp. Why not retell this or another story using things from around your home and make some

Create

We sincerely hope all our families are safe and well. Please don't put yourselves under too much pressure with the home learning - these are just some fun activities you can try. Spend time with your children but remember to also try and take some time for yourself as well. If you have any further questions or feedback regarding the home learning email the teachers: Claire: cnavai@grove.southwark.sch.uk; Sarah: smaskell@grove.southwark.sch.uk
