

## Personal, Social and Emotional

Being kind is very important. Being kind to family, friends and even people we don't know. What kind thing could you do? Could you share your sweeties? Could you carry something for someone? Can you use kind words when asking for something? In Nursery children have been kind by helping new children find their coat, take turns with toys and use kind words.

Being kind

## Communication and Language

Sometimes it is just nice to sit down and have a cuddle and a chat with your child. You could look at photo albums together. Encourage your children talk about what they see.

Who is in the photo?

What are they doing?

What are they wearing?

Maybe look at baby photos together.

How did they look then?

How have they changed as they have grown?

Maybe show your child photos of you when you were a baby!

Talk

## Physical Development

It's fun to move in different ways. Can you ...

- Wriggle like a worm
- Fly like a bird
- Hop like a rabbit
- Jump like a frog
- Scamper like a squirrel
- Creep like a fox
- Scurry like a mouse

Move

What other ways can you think of moving?

## Literacy

### Ladybird: a poem

There's a ladybird in my garden

She has lots of spots

Climbs up on the plants and along the pots

She walks around all day, busy as can be

This lovely little creature roaming oh so free

She sits upon the leaves, underneath the sun

Up and down she goes, having lots of fun

She is very happy and passes on the hours

Roaming round the plants, in and out flowers

So beautiful a creature, so beautiful is she

Roaming round my garden, is where she loves to be.

Poetry

## Mathematics

### Make your own dough

2 cups of plain flour

1 cup of salt

1 cup of water

2 tablespoons of cooking oil

Measure

Add all of the ingredients together (gradually adding water) and mix until you form a soft dough. You can add some food colouring if you like. And that's it!

Go to our YouTube channel to see Claire make dough

## Understanding of the World

We all love Ladybirds with their brightly coloured cases and dotty patterns. But did you know you can see Ladybirds in all of their life stages if you look carefully. You may see:

- Eggs
- Larva
- Pupa
- Adults

Change

When you are in the park next can you find any Ladybirds? Did you know that not all Ladybirds are red with black spots? Some are black with red spots or orange with white spots!

## Expressive Arts & Design

Can you make a potion using different things from around your home, garden or things you collect at the park? At Nursery we have been making potions with leaves, sticks, stones and mud. You can write your potion down to help you remember what you put in it. What does your potion do? Can it make the rain stop? Can it make you grow really tall? Or shrink really small?

Pretend

We sincerely hope all our families are safe and well. Please don't put yourselves under too much pressure with the home learning - these are just some fun activities you can try. Spend time with your children but remember to also try and take some time for yourself as well. If you have any further questions or feedback regarding the home learning email the teachers.
