

# This week's School & Home Learning

Summer Term 2

Week 5 & 6

29/06 - 10/07

## Personal, Social and Emotional

We are more confident in routines, friendships and welcoming more children into our bubbles. We've been happily singing and dancing. Let's make musical instruments and outdoor musical areas.

## Physical

Make an animal or superhero face mask then explore different ways of moving. We could hop like a kangaroo or do star jumps and some superhero moves! Each person in the group should have a turn to choose a move. Should we also try to remember all the moves and repeat them in a sequence? Watch PE with Joe.

## Communication & Language

Some of us went to Surrey Docks farm last year. Let's visit a farm again! Sing along with Singing Hands and do Makaton actions to 'Old MacDonald had a farm.'

## Expressive Arts & Design

Let's make a picture of our favourite creature. Perhaps we could use loose objects, watercolour paints or charcoals to show an interesting pattern? At home watch this film on our you-tube channel about a spider.

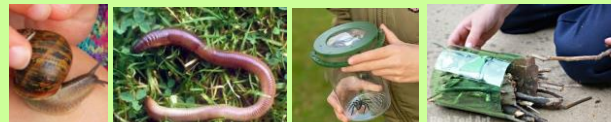

<https://www.youtube.com/watch?v=17Wgz0FzDBO>

## Understanding the world

We have been investigating different habitats (e.g. ponds, logs, grass). We spotted spiders, snails and rare and endangered stag beetles! Think about how bugs grow and keep safe in their habitat especially from predators? How can we find other wildlife? Watch this clip for tips to build a simple bug hotel.

## Maths

How are our plants doing? Have they started sprouting yet? Can we order plants according to size? How about other objects?

## Literacy

Should we make up our own stories about our favourite creatures? The Unicorn Theatre has streamed shows of Anansi the Spider.

Here are some activities that the children will be encouraged to do. You can try some at home too. Please email your Key Person queries and also photos to share on twitter.
