

Let's make a rain stick

You will need:

1. Toilet roll tube
2. Cloth
3. Dried bean, rice or lentils
4. Tin foil
5. Scissors, glue/rubber bands (or a hair tie).

Method:

Get your toilet roll holder or bottle and wrap one end of it. Twist your tin foil and place in the middle of tube. Make sure your tin foil twist goes from one end to the other. Place beans, lentils or rice in the middle. Wrap the other end. Make sure both ends are secure so that none of the beans fall out. Now you can decorate you stick and enjoy the sound of rain!
