

3-5s' - Three Week Learning Block - April 13th - May 1st 2026

Core Books

Jack and the Beanstalk

Jasper's Beanstalk

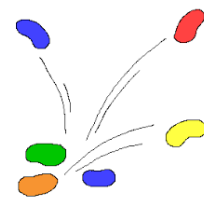

Our Songs and Poems

Five Fat Peas

Five fat peas in a pea pod pressed
One grew, two grew, so did all the rest
They grew and grew and did not stop
Until one day, the pod went POP!

Jumping Beans

We are jumping beans,
the biggest beans you've ever seen,
we can jump so high,
almost touch the sky
1,2,3,4,5!
Whoosh!

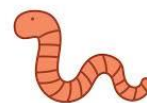

The Little Green Frog Song

Mmm Mmm went the little green frog one day
Mmm Mmm went the little green frog
Mmm Mmm went the little green frog one day
And the frog went Mmm Mmm Ahhh!

But we know frogs go (clap) la-de-da-de-dah
(clap) La-de-da-de-dah
(clap) La-de-da-de-dah
We know frogs (clap) go la-de-da-de-dah
They don't go Mmm Mmm Ahhhhh!

Under a stone

Under a stone where the earth was
firm,
I found a wiggly, wiggly worm;
'Good morning', I said.
'How are you today?'
But the wiggly worm just wriggled
away!

You can help your child by reading with your child every day, singing our core songs together, and reciting and acting out the poem.

Science Focus

Science is about investigating materials, forces and nature.

- Look for wildlife such as insects, frogs and birds in the garden or park - what can you find out about them in their habitat?
- Plant seeds provided in your **child's growing pack**. Care for them and watch them grow. Send in some photos too!

- When watching to see how the beanstalks grow use language for comparing size such as "short", "tall", "taller", "tallest."

- I wonder how tall your beanstalk will grow?
- How can you measure your plant?

- How about recording the different stages of your plant's growth? You can take photos and draw it too.
- Do remember to water your plant.

St George's Day

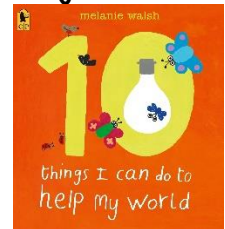

To celebrate St George's Day, we will read the story of St. George and the Dragon and do some craft activities and imaginative play based around knights as well as building castles, making dragon masks.

Earth Day 2026

Can you think of different ways to help the world?

What about reusing and recycling materials by doing some junk modelling?

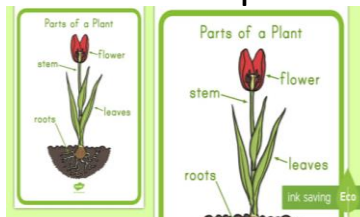

Plant Focus

We will investigate

parts of a plant to understand their importance and will draw and paint our plants using chalks, charcoals and watercolour paints.

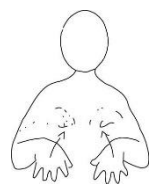

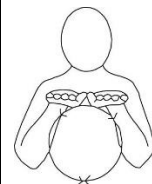

Makaton

We are learning these Makaton signs:

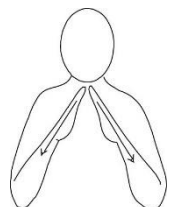

Ball

Sand

Build

House

Climb

Run
